## Objective

I am looking for a part-time role in frontend, backend or full stack software development that will complement my studies in Software Engineering and give me on-the-job experience.

## Personal Statement

I strive to be the best employee I can be in any job. My goal is to find a career that aligns with my interests in media or programming. My previous work experience includes customer service, digital marketing, drone operation and promotions. I have a good work ethic and am eager to learn new skills and expand my knowledge.
